Cambridge Management Company

March 17, 2011

To Whom It May Concern:

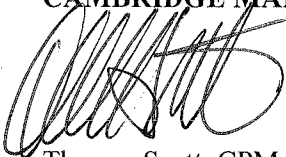

Cambridge Management Company had utilized the services of CalVac Paving for over ten years on a variety of projects involving paving and concrete work. We have always found them to be extremely responsive throughout every step of the process. They have assisted us when necessary in evaluating options with regard to the scope of work, preparation of the bids, and also performing the work in a very satisfactory manner. This often involves working around the needs of both residential and commercial tenants.

In the rare instances where there has been a problem to resolve, CalVac has always been responsive to solving the problems and making sure they had a satisfied customer at the end of the process.

We highly recommend them for your paving and concrete projects, and make this recommendation without any reservations.

Sincerely,

**CAMBRIDGE MANAGEMENT COMPANY**

Thomas Scott, CPM  
President
