To whom it may concern:

On behalf of our company, Neighborhood Association Management, Inc. I would like to take the time to express how happy we have been with the service provided by Calvac Paving. There have been two large projects done recently, with another one starting later this year. Calvac Paving has been the top choice for two of the associations I personally manage.

The Board of Directors (at both associations) was very happy with the work provided. Calvac Paving went above and beyond what was expected to ensure everything went smoothly. They worked with me when scheduling was being done to ensure I could be onsite during the work. There were some minor issues (ponding and a severe hole that appeared) that they were happy to resolve as fast as possible.

They start on time, finish on time, and remain professional during the whole project. If anything happened during the project, the second I called Greg Bergman, he was on it instantly to resolve whatever the issue may have been.

The professionalism, and respect we were given made it all that much better to work with them. I hope to continue to work with them now and in the future.

I would definitely recommend Calvac Paving to anyone for any project related to their expertise.

Sincerely,

Sandra Rusakiewicz, Property Manager

Dee Lachner, Property Manager
